

SoC Design Laboratory

Final Project

Demo & Presentation Guide

Instructor: Tian-Sheuan Chang
Announcement: 2004.05.13
Report due date: 2004.06.03
Demo date: 2004.06.02 & 2004.06.03
Presentation date: 2004.06.09 & 2004.06.16

The grading of the final project involves the final complete report, demonstration, and presentation. These consist of 30% of your semester grade.

The final project requires demonstration of your JPEG codec prototype system on the Integrator. TAs will ask related questions regard to your design during the demonstration. Demonstration information is listed as follow:

- Demo date: 2004.06.02 & 2004.06.03
- Each group demonstrates using 20 minutes
- Appoint demonstration time with TA at ED412

The presentation of your groups work will be held during the course hours on 2004.06.09 and 2004.06.16. Give a brief and clear description of your design, features, and results. Instructor might ask some questions during the presentation. Key information is listed as follow:

- Presentation date: 2004.06.09 & 2004.06.16 course hours
- Each group presents 10 minutes
- Appoint presentation order with TA at ED412
